

Excerpt from Raymond James, Sept. 14, 2023

## **Software Slice of ...**

... is one of the better-performing clean tech stocks year-to-date – up 24%, versus the benchmark ECO index's decline of 8% – and the reason is straightforward: after two years of COVID-related electrical component shortages, the company is finally seeing more or less normalized supply chain conditions. Today, however, we will zoom in on ....
